

## *The Christmas Ball: The Perfect Decoration*

There's no need for overdone Santa's Workshops or dancing snowmen this Christmas season! This ball, with its evergreen branches, silver bells, and holly-and-ivy ornamentation, encapsulates perfectly the ideals of Christmas while at the same time de-emphasizing the commercial aspects of the season. Plus it's made of completely nonbiodegradable materials, meaning you'll never have to replace it!

### *Features*

As with most of the best things in life, the Ball O' Christmas is customizable to your own needs. Here are just a few suggestions to help you get started:

- **Use instead of a tree**—perfect for very small houses or those with more presents to give away than space under a traditional tree.
- **Start conversations**—by using this decoration as a centerpiece at your next Christmas party, you'll be sure to be the talk of the town!
- **Repurpose as a toy**—its noted similarity to the Death Star makes it perfect for the Star Wars fan in your life.
- **Supplement your caroling**—what better way to sing "Jingle Bells" than with a jingling ball?
- **Replace a Nativity piece**—if a flying ping pong ball takes out the star in your Nativity set, just position the Ball o' Christmas in its place and shine a flashlight on it.
- **Be politically correct**—its generic design gives you a defense against those who would be offended by a traditional decoration.

The Christmas Ball is available for a limited time only, so act today! Use the promo code **RockingAroundTheChristmasBall** for a 30-second free trial!

### *What People Are Saying*

"I feel the spirit. The Christmas spirit" – Davin Granroth

"It's lovely." – Jackie Park-Cross

"It's more than enough." – Chad Hadfield
